\$SAVA fam, here is your late breaking, brand new \$SAVA news item which is, of course...a month old:

- Re: Freedom of Information Act (FOIA), 5 U.S.C. § 552
Request No. 21-02663-FOIA
- Dear [REDACTED]:
- This letter responds to your request, dated and received in this office on September 3, 2021, for "emails sent to, from, or copied to addresses in the @sec.gov domain to and/or from the following addresses: remi@cassavasciences.com or lburns@cassavasciences.com."
- We are withholding records that may be responsive to your request under 5 U.S.C. § 552(b)(7)(A). This exemption protects from disclosure records compiled for law enforcement purposes, the release of which could reasonably be expected to interfere with enforcement activities. Since Exemption 7(A) protects the records from disclosure, we have not determined if other exemptions apply. Therefore, we reserve the right to assert other exemptions when Exemption 7(A) no longer applies.
- It is the general policy of the Commission to conduct its investigations on a non-public basis. Thus, subject to the provisions of FOIA, the Commission does not disclose the existence or non-existence of an investigation or information gathered unless made a matter of public record in proceedings brought before the Commission or in the courts. Accordingly, the assertion of this exemption should not be construed as an indication by the Commission or its staff that any violations of

All this mess brings nothing for families that are prying for a miracle. Can't you all just leave your personal interests and ego on aside and let the FDA determine if this drug work!! Can't all of you stop been experts. Let \$SAVA and all companies work in peace!
- Jesse brodkin** @jesse_brodkin · Nov 18, 2021
If Remi is a con artist manipulating scientific results to defraud investors and take advantage of elderly sick patients, he is a sociopath that should be stopped immediately. I hope you agree.
- J** @joosteenpindoos · Nov 18, 2021
@jesse_brodkin you're here tweeting day in and day out about Cassava Sciences. Your intentions are to put this company out of business by any means necessary. You don't even care if the drug works. It sounds like you might be the sociopath, no?
- BruinAnteaterStocks** @BruinStocks · Nov 19, 2021
Plot twist; @jesse_brodkin knows he's schilling and wants to join our side. He's the only one capable of being rational \$SAVA..come on Jesse, we love ya!

I will come over when anyone ANYONE can replicate Wang's work or Remi's. Ask yourself why no other Big Pharma is even trying simufilam in even rodents... it would cost them pennies. \$sava has no enforceable patent, \$100B/yr field wide open and they couldn't be bothered. Why?

Have you ever seen a named scientist on this site defend \$sava? They are a joke. Researchers don't even take them seriously enough to debunk them, it that obvious to anyone anywhere near the field.

Even their paid scientific advisory board is completely silent. Wang, the supposed inventor of the greatest medical discovery of the century, is nowhere to be found. If that was me, no lawyer on the planet could stop me from defending myself and telling the world AD is cured 😊

"AD is cured"? 🤔 When the drug is still investigational and in trials, I am pretty sure there are restrictions wrt promoting it. Remi and co. have actually been cautious (contrary to your accusations about pumping) in informing investors about risks. P3 success isn't guaranteed.

Lawrence Shaw @lawrenceshaw82 · Nov 19, 2021
Remi keeps iterating "data will speak for itself". Only as a natural defense to CP and shorting shenanigans, he has had to defend and deal with some short term consequences. I don't know who asked you to cover and go long. Please don't. You are a great motivating opponent 😊

C'mon man the dude is in hiding, you know it, I know it. You sound like the defense lawyer for a client you know is guilty. You know that you are not obligated to hold, right? Take a step back, Wang stumbled upon the cure for AD, really? Why all the fudged blots?
